This is in response to the letter dated September 12, 2012 regarding the various issues with the July 2012 report.

1. The contribution from George B. Delaplaine on 12/23/11 was incorrectly entered on the FEC report as a contribution to the general election, when in fact the contributor clearly noted a designation to the primary election. We have amended the FEC Report from January, 2012 with the correct designation to the primary election.

A refund check of \$5,000 for excess contributions for the general election was issued to Haibin E.C. Whang on 7/12/12. The check number is 457. A copy of the check will be mailed to the FEC. This will be reported on the FEC filing for October 2012.

2. The contribution from CMR Political Action Committee was incorrectly entered on the FEC report as a contribution to the primary election. We have amended the FEC report from July 2012 with the correct designation to the general election.

3. The contributions from unregistered organizations were composed of federally permissible funds under \$1,000 from state PAC's. We have amended the FEC report from July 2012 to note in the description that they are federally permissible funds.

4. We will amend the FEC report from July 2012 to correct the inadequate purpose of disbursement descriptions according to the guidelines found on the FEC website.

5. We have amended the FEC report from July 2012 to itemize the reimbursements to staff.
